

Spécialité Physique Chimie

Première: 4 heures par semaine (2h de cours, 2h de TP)

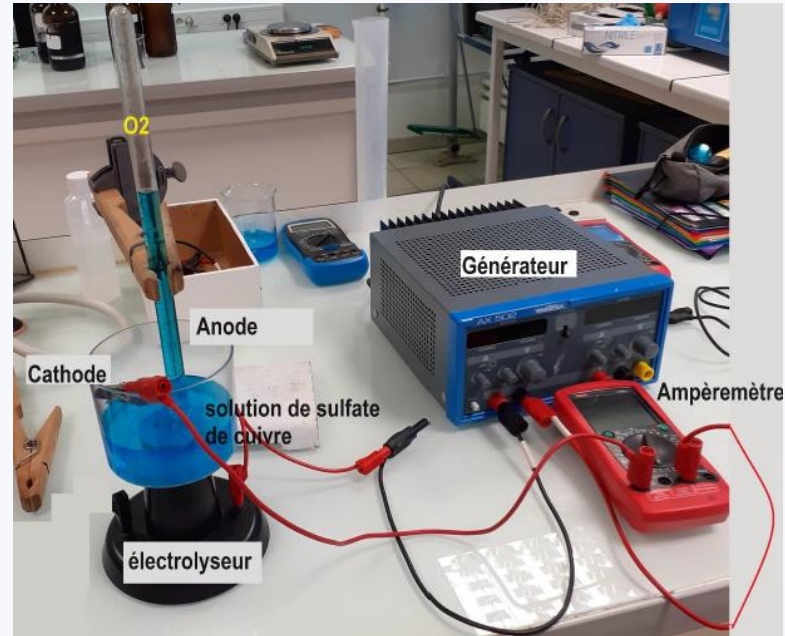

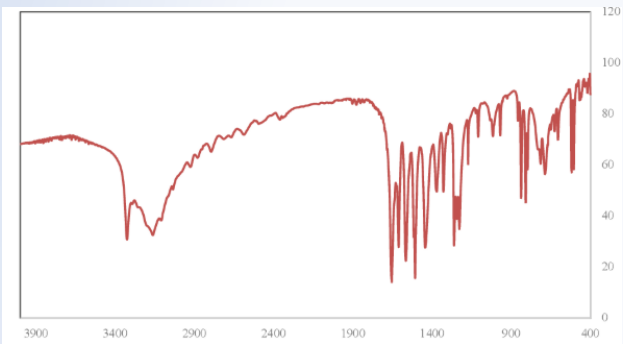

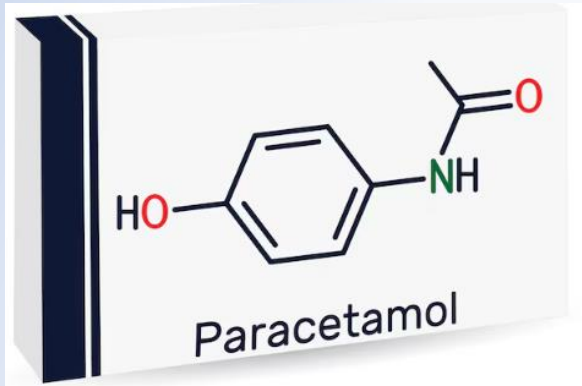

Terminale: 6 heures par semaine (4h de cours, 2h de TP)

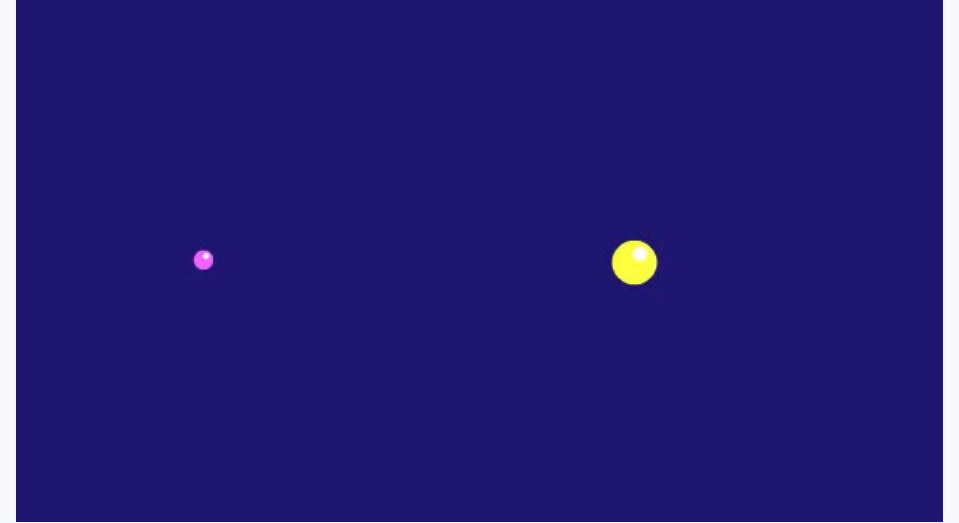

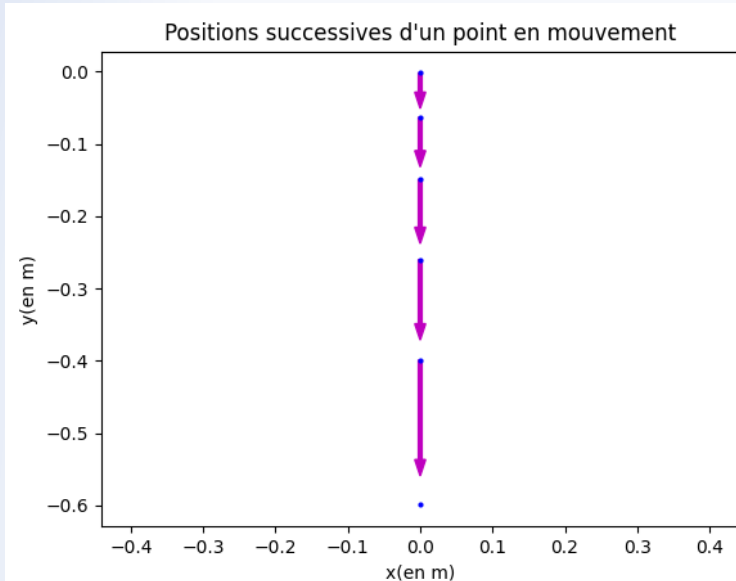

4 thèmes:

- « Constitution et transformations de la matière »
- « Mouvement et interactions »
- « L'énergie : conversions et transferts »
- « Ondes et signaux ».

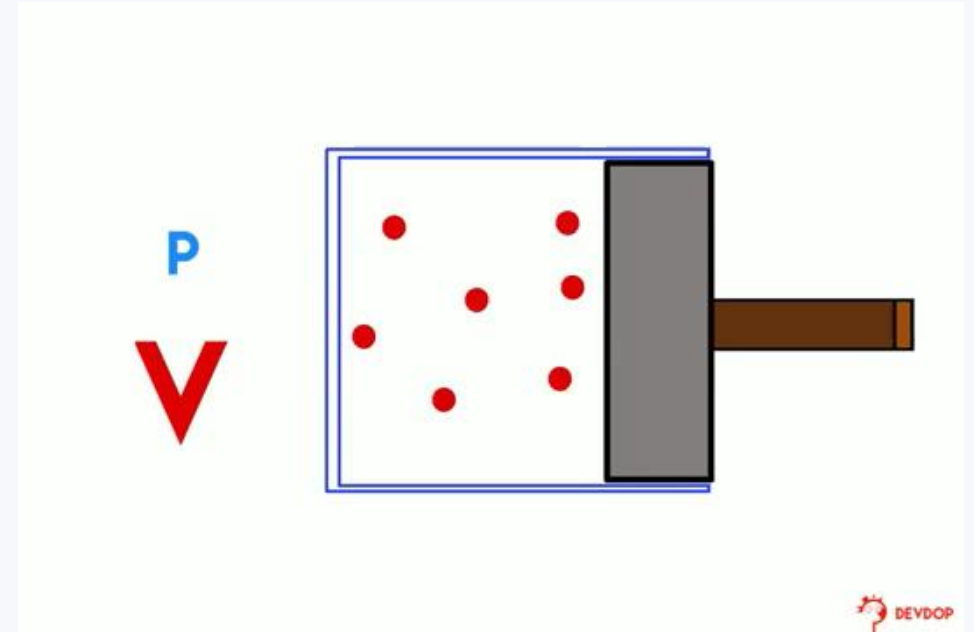

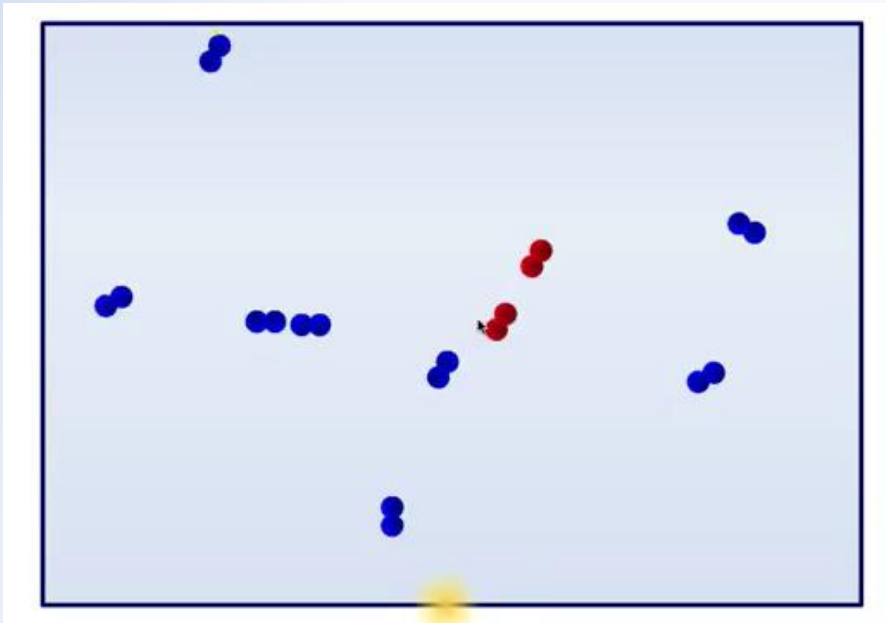

Constitution et transformations de la matière

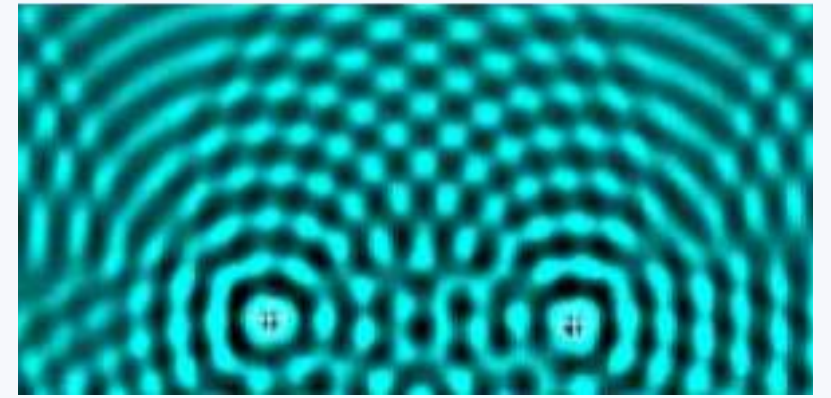

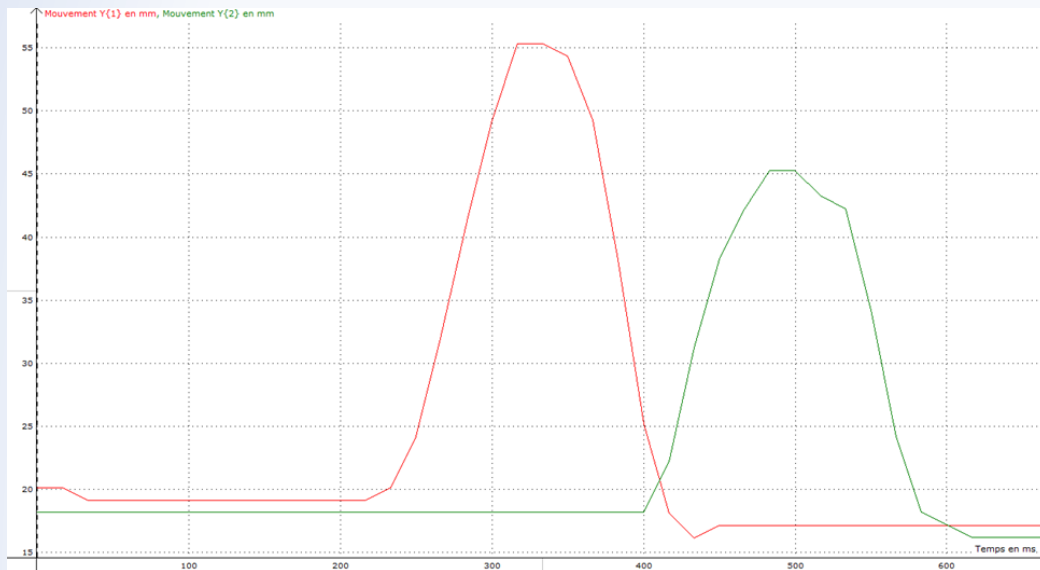

Mouvement et interactions

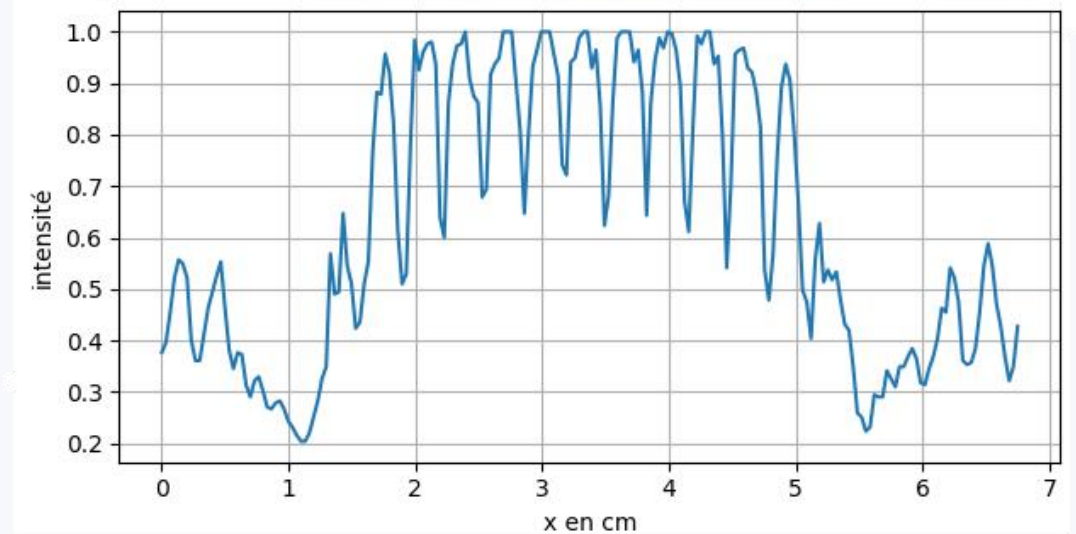

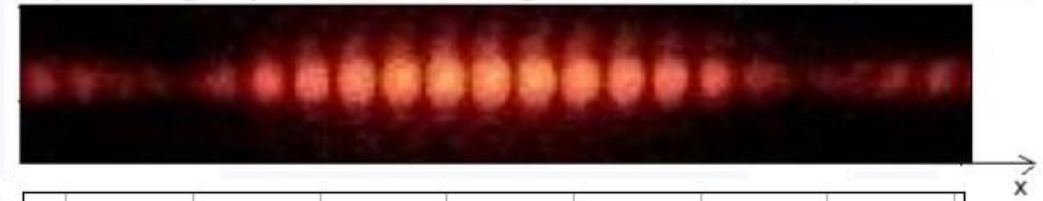

L'énergie : conversions et transferts

Ondes et signaux
